Representation to government agencies for import/export matters	✓			
Institution profile i.e. conferences, website, publications, press releases, etc.	✓		✓	

KEY BENEFITS

Involvement in animal management & support

ZAA leads the Australasian Species Management Program (ASMP), under which we coordinate over 100 breeding programs for a select group of species at ZAA-accredited sites. Managed programs play a role in protecting threatened species, conservation research and conservation education. This approach involves managing the animals at different ZAA-accredited zoos and aquariums as one big population and supports genetically diverse and sustainable species populations.

ZAA Accreditation

We have a progressive, science-based approach to animal welfare. Using the Five Domains Model, ZAA grants accreditation to zoos and aquariums that have clearly demonstrated their commitment to positive welfare. This approach champions welfare from the animal's perspective and it underpins all that we do.

Member Events

ZAA's Annual Conference & Workshop 3-day event provides the opportunity for zoo and aquarium experts and partners to come together to share ideas, discuss zoo and aquarium developments and to network. All members can attend at member rates.

Association Communications & Newsletter

All members and employees of member organisations are entitled to receive ZAA's Behind the Scenes newsletter, and as a new member you will be added to the recipient list. Our digital newsletter is where we promote the news and achievements of our members and on the progressive work of the Association.

Member Resources

As an association, ZAA brings its members together, facilitating shared knowledge and continuous improvement in conservation, welfare, biosecurity, science, research, social and community programs. The ZAA Portal is the gateway to member-only resources, that allows members to work together and share this knowledge.

Government Advocacy

ZAA works with government agencies to ensure that industry requirements are considered in legislation, regulation, policy and practice; to ensure the ongoing relevance and sustainability of zoos and aquariums.

Voting

ZAA Regional Members receive the privileged right to vote at ZAA General Meetings.

Specialist Advisory Groups

Employees of have the opportunity to network with other professionals in the zoo and aquarium industry by joining a Specialist Advisory Groups (SAGs), the following which are available:

- Animal Records Keeping *
- Communications *
- Engagement *
- Environmental Sustainability
- Veterinary *

* Membership is restricted to professionals working in specialist fields.
